The Vendor Table stores all information about a vendor—you only have to enter this information once to have it available for any project. This report shows all the detail entered for each. There is a shorter "list" report for basic contact information, and each project includes a report showing vendors that were used in the project.

Budget Summary by Area, Room

After products are selected, priced and attached to project objects, this report can compare actual prices against the original room and area budgets.

Illustration Sheet by Tag

Chair, Armless Dining

Tag: SEAT-01

Locations: C SU-Suite, Corner (4/Rm x 17 Rms); C SU B-Suite, Corner (w/ Bench) (4); EX SU-Suite, Executive (4/Rm x 6 Rms); EX SU B-Suite, Executive (w/ Benc (4/Rm x 4 Rms)

This item includes the following components:

Specification: SEAT-01 - Chair, Armless Dining

COM-03 - Uphol. For Seat-01, "Mural"

SCOTCH-02 - Scotchguard Treatment For Com-01

Total Quantity: 112

Price: \$259.80

Total: \$29,097.60

The "Illustration Sheet" format can be used with or without scanned images (in the latter case, leaving a space for paste-up of catalog samples). This example shows only minimal information. Note that the "Locations" area notes when the object is used in a prototype room that occurs more than once in the project.

This format supports JPEG, GIF and BMP file formats (the first two are recommended over BMP, which uses much more disk space).

This is the "Quote/Contract" format, organized by area and room, and using the "quote" option. Like all reports, you can specify a different title and subtitle for the report. This example shows only the objects, however you can select an option that also shows the individual specifications that make up each object and, if desired, prices for each of these components.

Another version of the report uses a similar format but sorts the objects only by tag, producing an alphabetical listing.

This report breaks all objects into their component products and summarizes these for ordering purposes. Multiple usages are combined into a single quantity and alternate shipping addresses are shown where needed. This report can be printed as a single report, as shown here, or you can have it start a new page for each vendor so it can be used for purchasing purposes.
